

Flood Watch for North Central Alberta

A Flood Watch remains in effect for the following streams in Swan Hills region and their tributaries:

- **Swan River** (near Kinuso)
- **Driftpile River**
- **Freeman River** (near Fort Assiniboine)

The above streams are currently rising rapidly in response to the 60 to 100 mm of rain that was recorded in the last 48 hours. An additional amount of 30 to 60 mm of rain is forecast for the Swan Hills region in the next 24 hours.

High Streamflow Advisory Update for North Central Alberta

A High Streamflow Advisory has been expanded to include the following streams in the Grande Prairie region and their tributaries:

- **Simonette River**
- **Little Smoky River**

The above streams are currently rising rapidly in response to the 30 to 50 mm of rain that was recorded in the last 48 hours. The Simonette and the Little Smoky River Basin received 10 to 30 mm of rain from 06:00 to 12:00 hour this morning. An additional amount of 30 to 60 mm of rain is forecast for the Grande Prairie region in the next 24 hours.

A High Streamflow Advisory remains in effect for the following streams in Swan Hills region and their tributaries:

- **Sawridge Creek** (through Slave Lake)
- **East Prairie River** (near Enilda)
- **West Prairie River** (near High Prairie)

The above streams are currently rising rapidly in response to the 60 to 80 mm of rain that was recorded in the last 48 hours. An additional amount of 30 to 60 mm of rain is forecast for the Swan Hills region in the next 24 hours.

Alberta Environment is monitoring river levels closely and is in close contact with Environment Canada Weather Services. This advisory will be updated if the situation changes.

Additional information is available from the Forecasters Comments on our website at:
<http://www3.gov.ab.ca/env/water/ws/ForecastersComments/index.html>.

A High Streamflow Advisory means that stream levels are rising or expected to rise rapidly and no major flooding is expected. Minor flooding in low-lying areas is possible. Anyone situated close to the streams affected (campers, fishermen, boaters and the general public) is advised to be cautious of the rising levels.

A Flood Watch means that stream levels are rising and will approach or may exceed bank full. Flooding of areas adjacent to these streams may occur. Anyone situated close to the streams is advised to take appropriate precautionary measures.

A Flood Warning means that rising river levels will result in flooding of areas adjacent to the streams affected. Anyone situated close to the river should take appropriate measures to avoid flood damage
