

# High Streamflow Advisory Ended

Issued at: 1:45 PM, September 6, 2004

Issued by: River Forecast Centre, Flow Forecasting Unit

---

## High Streamflow Advisory for North Central Alberta

Alberta Environment has ended the high streamflow advisory for streams in Central and West Central Alberta, that includes the following streams and their tributaries:

### In the Grande Prairie region:

- Kakwa River
- Cutbank River
- Wapiti River
- Saddle River
- Simonette River
- Smoky River
- Little Smoky River

### In the Swan Hills region:

- Sawridge Creek
- Swan River
- Driftpile River
- Freeman River

Streams in the Grande Prairie, and Swan Hills regions rose sharply in response to precipitation that fell over the past week. Although these streams have peaked, they are still high for this time of year.

## High Streamflow Advisory for North Central Alberta

A High Streamflow Advisory remains in effect for the following streams in the Swan Hills region and their tributaries:

- West Prairie River
- East Prairie River

These streams are continuing to react to precipitation that fell this weekend, but are expected to peak by this evening. No flooding problems are anticipated.

Additional information is available from the Forecasters Comments on our website at:

---

**A High Streamflow Advisory means that stream levels are rising or expected to rise rapidly and no major flooding is expected.**

Minor flooding in low-lying areas is possible. Anyone situated close to the streams affected (campers, fishermen, boaters and the general public) is advised to be cautious of the rising levels.

---

**A Flood Watch means that stream levels are rising and will approach or may exceed bank full.** Flooding of areas adjacent to these streams may occur. Anyone situated close to the streams is advised to take appropriate precautionary measures.

---

**A Flood Warning means that rising river levels will result in flooding of areas adjacent to the streams affected.** Anyone situated close to the river should take appropriate measures to avoid flood damage
