
High Streamflow Advisory Issued for South Central Alberta

A **High Streamflow Advisory** has been issued for the following streams and their tributaries in the Bow River basin:

- **Highwood River** including the town of High River
- **Sheep River** including Turner Valley, Black Diamond and Okotoks
- **Fish Creek**
- **Elbow River** including the town of Bragg Creek
- **Kananaskis River**
- **Bow River** including Canmore, Cochrane, Calgary and Hidden Valley
- **Nose Creek** including Airdrie

A **High Streamflow Advisory** has been issued for the following streams and their tributaries in the Red Deer River basin:

- **James River** including Sundre
- **Bearberry Creek** including Sundre
- **Little Red Deer River**
- **Raven River**
- **Red Deer River** upstream of the Dickson Dam, including Sundre
- **Medicine River**

A **High Streamflow Advisory** has been issued for the following streams and their tributaries in the North Saskatchewan River basin:

- **Clearwater River** including Dovercourt
- **Ram River**

These streams are expected to rise due to 50 millimetres or more of precipitation forecast for these areas, starting tonight and lasting into Sunday. Up to 100 millimetres is possible in some areas.

Alberta Environment is monitoring river levels closely and is in close contact with Alberta Forestry's and Environment Canada's Weather Services. Additional information is available from the Forecasters Comments on our website at: <http://www3.gov.ab.ca/env/water/ws/ForecastersComments/index.html>.

This advisory will be updated if the situation changes.

A High Streamflow Advisory means that stream levels are rising or expected to rise rapidly and **no major flooding is expected**. Minor flooding in low-lying areas is possible. Anyone situated close to the streams affected (campers, fishermen, boaters and the general public) is advised to be cautious of the rising levels.

A Flood Watch means that stream levels are rising and will approach or may exceed bank full. Flooding of areas adjacent to these streams may occur. Anyone situated close to the streams is advised to take appropriate precautionary measures.

A Flood Warning means that rising river levels will result in flooding of areas adjacent to the streams affected. Anyone situated close to the river should take appropriate measures to avoid flood damage
