

### River Basins Currently with Advisories

Information in addition to this advisory may be found at:

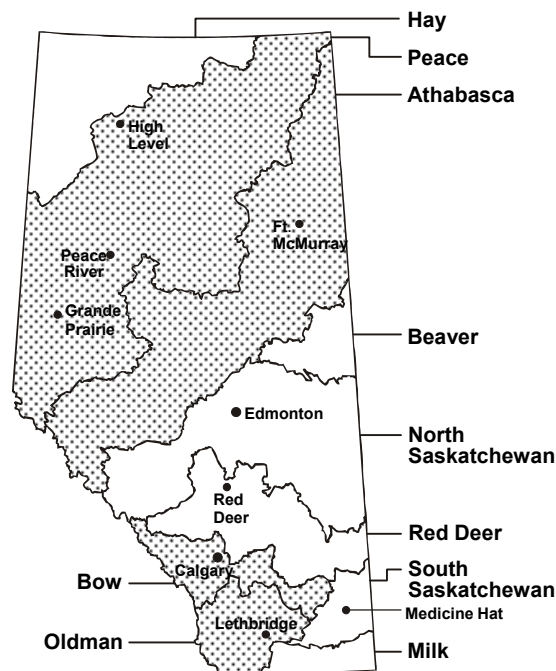

<http://www.environment.alberta.ca/forecasting/forecasterscomments>

<http://www.environment.alberta.ca/apps/basins>

**High Streamflow Advisory** – Stream levels are rising or expected to rise rapidly and no major flooding is expected. Minor flooding in low-lying areas is possible. Anyone situated close to the streams affected is advised to be cautious of the rising levels.

**Flood Watch** – Stream levels are rising and will approach or may exceed bank full. Flooding of areas adjacent to these streams may occur. Anyone situated close to the river is advised to take appropriate precautionary measures.

**Flood Warning** – Rising stream levels will result in flooding of areas adjacent to the streams affected. Anyone situated close to the river should take appropriate measures to avoid flood damage.

### Streamflow Advisory Overview for Alberta

Advisories apply to streams and their tributaries unless otherwise noted..

- Significant additional precipitation is forecast tonight and tomorrow for areas of southern Alberta, including in the Bow and Oldman River basins.
- This advisory will remain in effect until Monday, July 20, 2009, and will be updated as required. Conditions continue to be monitored.
