High Streamflow Advisory – Stream levels are rising or expected to rise rapidly and no major flooding is expected. Minor flooding in low-lying areas is possible. Anyone situated close to the streams affected is advised to be cautious of the rising levels.

Flood Watch – Stream levels are rising and will approach or may exceed bank full. Flooding of areas adjacent to these streams may occur. Anyone situated close to the river is advised to take appropriate precautionary measures.

Flood Warning – Rising stream levels will result in flooding of areas adjacent to the streams affected. Anyone situated close to the river should take appropriate measures to avoid flood damage.

Streamflow Advisory Overview for Alberta

Advisories apply to streams and their tributaries unless otherwise noted.

- ◆ Since 6 pm yesterday, 20 to 65 mm of precipitation has fallen in the southeastern slopes and foothills.
- ◆ Into Saturday, a total of 60 to 80 mm is forecast for the southeastern slopes and foothills, and 100mm at the higher elevations is possible. Precipitation falling at the higher elevations may fall as snow.
- ◆ Flows at Highwood River at the Town of High River are forecast to peak tomorrow during the day between 350 to 425 m³/s.
- ◆ Conditions are being monitored – an update will be issued as required.
